Random-Pos-00

Description

Contains Datasets that describe the relation of flags seen by a player to its position at the field and the direction it is currently looking at.

Absolute Position and Absolute Direction

Position is relative to the Side the player is currently playing.
Value ranges:
x: -50 to 50
y: -30 to 30
direction: -180 to 180
x, y values outside the range are possible but lay outside the field.

Position and direction seen from the east and west side.
